

Back is
The
Swimming
stone

Hi I have one thousand
pet backis. I need the
swimming stone. to get
it I have to go
to Gu-gu Iceland
so im on a plane
almost there!

when I landed I looked
around but too many trees
so I went into the forest.

I noticed some thingy
in the distance.

Soon I realised that the
stone was stolen
by the thing and it was
a spaceship!

Water
backis!" I
realised! So

I chased
the ship. But soon they
noticed me and started
soaking me! But I
was able to climb
aboard the ship!

I went to the
control room.

I pressed
the shoot
button.

Then

I realised
the laser
was pointing

at a very important wire
because all the screens
showed it in bright red!
