① battle

① round

bush
backis

Entreeak

both backis cicled
ecter. They both
had an advantage
nano wave backis was
 $\frac{1}{2}$ power type so had
stronger attacks -
bush backis was
a grass type and
nano wave backis is $\frac{1}{2}$ water type so bush
backis is super effective against nano ~~at~~

wave backis.

hano wave bacakis "power shot"

bush backis "over growth"

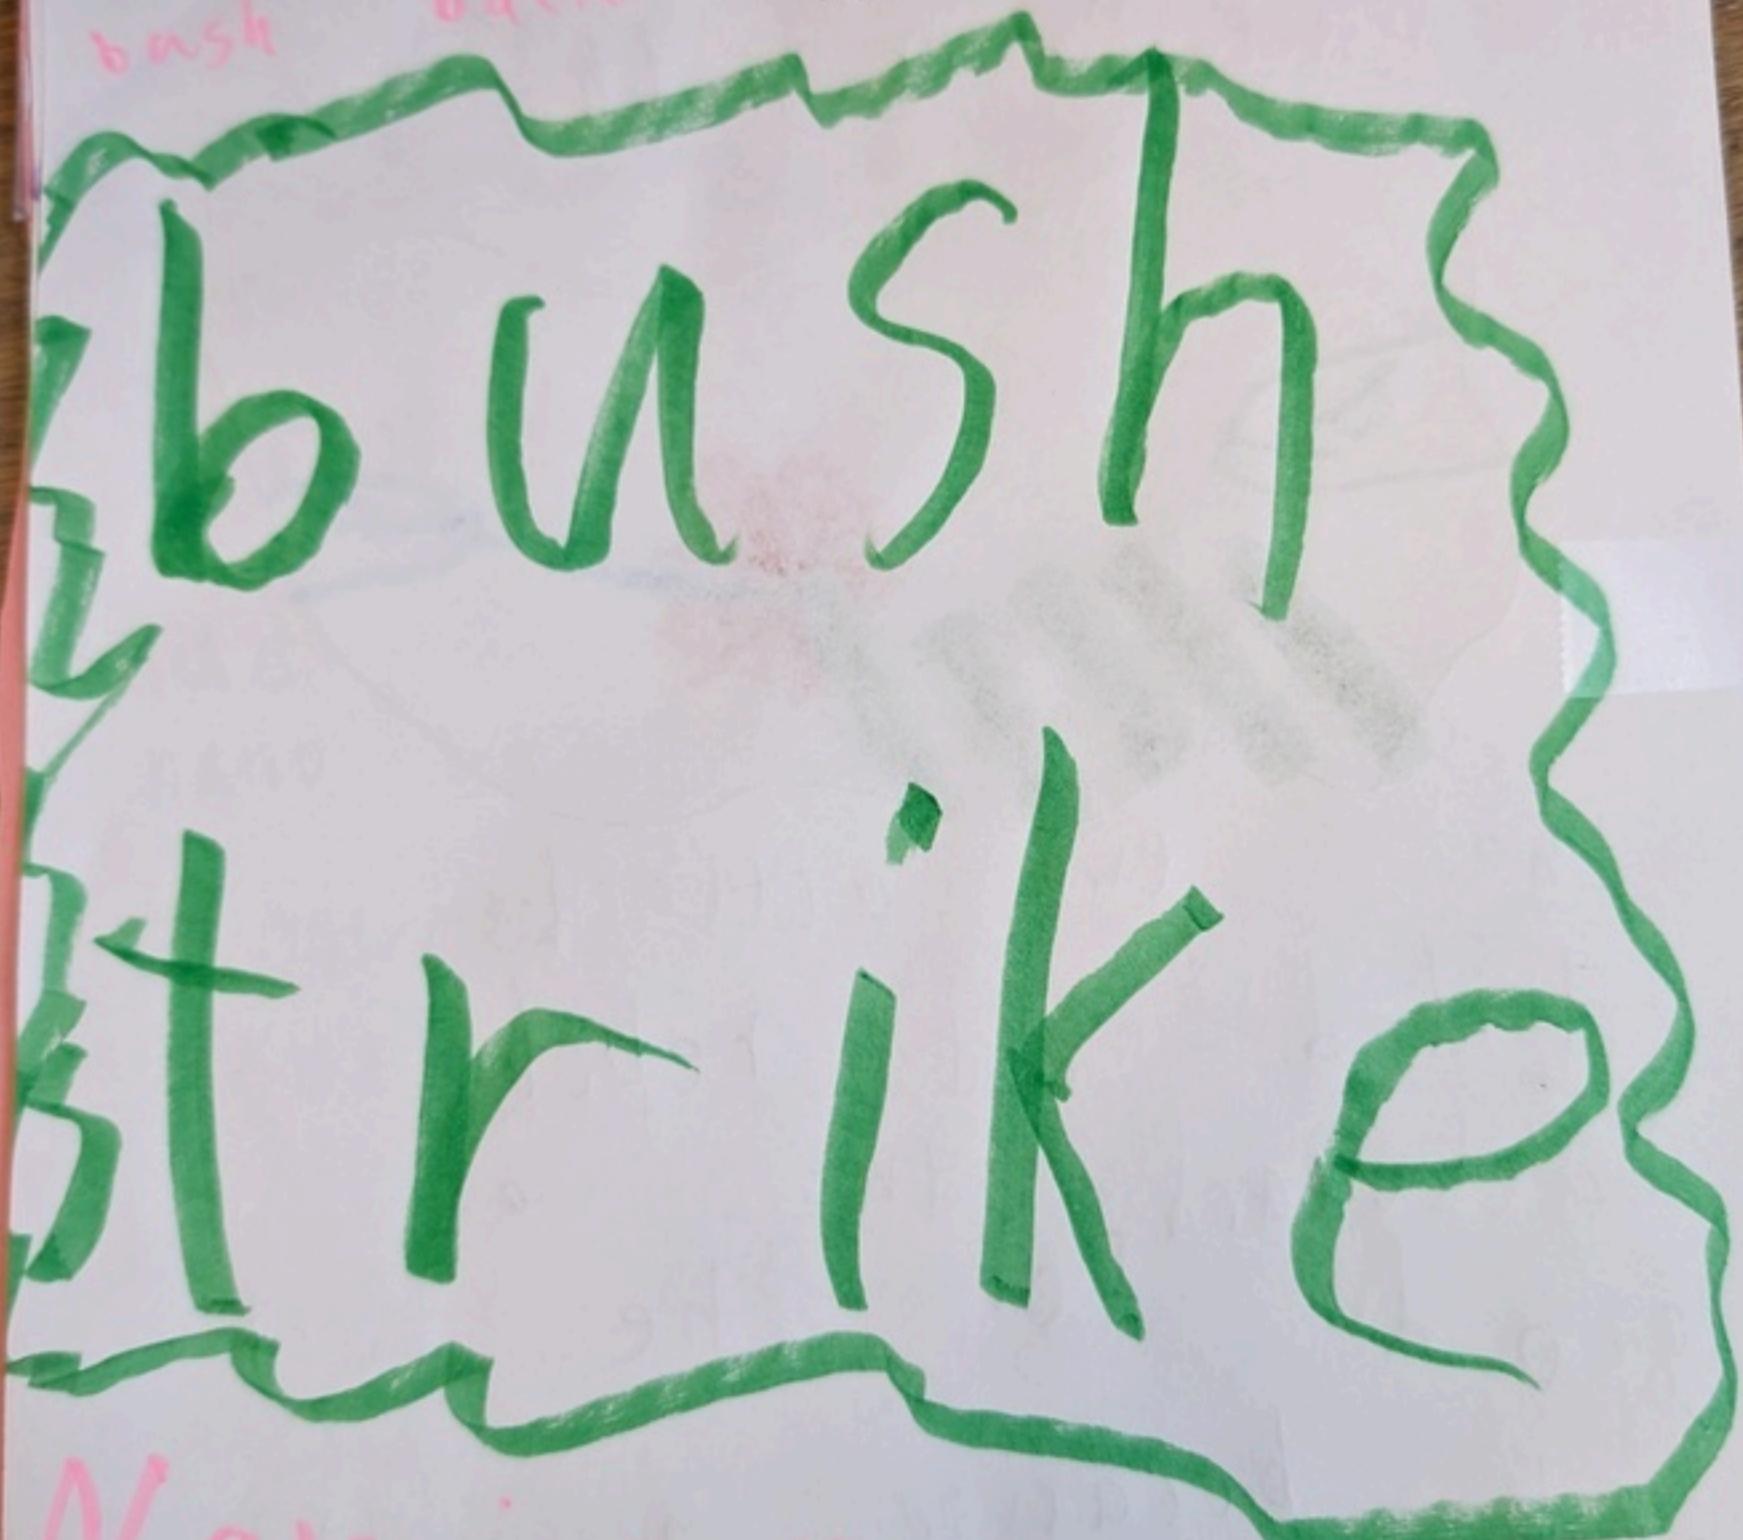

the two attacks

collided and repelled
backward this was
good for the bush

backis because overgrowth
Does -142 but power shot
Does -340

nano wave backis "mega strik~"
bush backis "bush strike!"

Nano wave backis
Nano "oh"
Nano wave backis

as we know from
the final battle
Savon vs bush back is
bush strik is a very
powerfull more.
With 25 HP left +
Nahno wave bush back is
uses heal (+3975)

so now it has
4000 HP less then
full (Б167).
